Work Experience

Vodafone   *Lisbon*
FRONTEND DEVELOPER   *June 2022 - Current*

- Nearly two and half years of dedicated service at Vodafone, contributing significantly to the eShop team's success and the continuous improvement of their frontend solutions.
- Utilizing **Vue.js** and **Java** extensively, with plans to integrate **React** into the development process in the near future.
- Employing **Scrum methodology** to manage and coordinate project tasks, ensuring efficient teamwork and timely delivery of features.
- Actively collaborating with cross-functional teams, including designers, backend developers, and product managers, to deliver cohesive and user-centric solutions, ensuring alignment with business goals and user needs.

Hypercode Lda.   *Braga*
GRAPHIC DESIGNER   *October 2020 - December 2021*

- Specialized in developing engaging social media content, tailored to the unique needs and branding strategies of various clients.
- Proficiently used **Adobe tools such as Illustrator, Photoshop, and Premiere** to design and edit high-quality graphics and videos.
- Collaborated with marketing teams and clients to conceptualize and execute visually appealing content that effectively communicated brand messages and drove audience engagement.

Punchline Pleasures Lda.   *Coimbra*
GRAPHIC DESIGNER INTERN   *March 2015- July 2015*

- Concentrated on developing a new visual identity for the e-learning platform, ensuring cohesive branding across all materials.
- Created and edited video content to enhance the learning experience, utilizing design skills to produce engaging and informative multimedia.
- Worked closely with the platform's development team and educational content creators, gaining valuable experience in integrating graphic design with digital education.
